

Team Building & Group Events

Escape Tactic is the perfect option for corporate team building, church events, or just your own large group. We have multiple pricing options to fit your needs and can rooms available to you before they're able to be booked by the general public.

We can accommodate large groups with games built for up to 10 players, and we have a private meeting room big enough to comfortably hold 20 people with gathering space for up to 30 guests available upon request for large groups.

We can help coordinate catering with our preferred partners and are always looking to make your group outing a top-notch experience. So if you have questions or special request, please don't hesitate to write or call to see how we can make your team event at Escape Tactic the best ever!

Group Pricing

Please email us at info@escapetactic.com or call us at 704.749.0773 to book your large group event.

Option 1- Semi-Private Games:

Booking: book from our regularly available schedule

Cost: bring a group of 20+ people and receive a 10% discount

Other players: other players may join your game if you do not book all of the open slots in a room or if you play a room where others have already signed up

Cancellation & No-shows: cancellations may be made up to 48 hours before your scheduled time and will receive a full refund. Any players who do not show up for their full game will be charged a 50% no-show fee. If less than half the schedule group shows, the group will be charged the full booking rate.

Option 2 – Private Games:

Booking: book the entire room

Cost: bring a group of 20+ people and receive a 10% discount

Other players: by booking the entire room, you will ensure that only players from your group play in your games. If you only have 28 players, for example, but want to book 4 8-person rooms, simply book all 32 spots, pay full price for the 28 players who play, and pay the 50% no-show fee for the other 4 spots.

Cancellation & No-shows: cancellations may be made up to 48 hours before your scheduled time and will receive a full refund. Any players who do not show up for their full game will be charged a 50% no-show fee. If less than half the schedule group shows, the group will be charged the full booking rate.

Hours

Please check out our website at www.escapetactic.com/book-escape-room to see the hours and availability for each room. If you have questions or are looking for other options, please email us at info@escapetactic.com or call us at 704.749.0773, and we'll try to accommodate your needs.

Our Rooms

We have multiple rooms available for booking. Each has a unique theme, different puzzles, and unique clues, but all of them require team work and collaboration for you to get out and become #EscapeArtists.

Here is a brief summary of each room or you can check them out at www.escapetactic.com/escape-rooms.

King Tut's Curse

Legend has it that the Egyptian god Aten put a curse on the young King Tut after he made all Egyptian's worship the god Amun. This curse can only be broken by reuniting King Tut's crook and flail – relics of Amun. Nearly 100 years after Howard Carter founded King Tut's tomb in 1922 there is still no sign of Tut's crook. It is known that in his tomb there is only the flail, but the whereabouts of the crook are unknown and must be paired with it in order to break Aten's spell.

You and your team of archeologists have been sent to find Tut's Crook and break Aten's spell, but legend says that whomever spends more than one hour in Tut's tomb will also bear the burden of Aten's curse. You'll have 60 minutes to break the spell or be cursed forever!

This is what we mean by a truly "immersive" experience. From the moment you walk in you'll feel like you're in an ancient Egyptian tomb with Egyptian relics, symbols of the gods, stone walls, hieroglyphics, secret passageways, and a life size King Tut sarcophagus. King Tut's Curse truly has it all making this truly one of our favorites!

Flight 282

Not long after you board a short evening flight from Charlotte to Washington, DC, things begin to go awry. Soon you learn that the plane has been hijacked by the pilot, and you need to reach the cockpit before the bomb he activated goes off! But you're back in the Main Cabin and must avoid the traps he's set to protect his plan by solving various clues, riddles, and puzzles. You'll have to navigate your way through the plane, gain crucial access codes and take back control before it is too late!

Flight 282 blends obvious clues with very subtle ones and balances riddles with logic problems. It's perhaps our most balanced game with something for everyone. And while other escape rooms around the country has tried to use an airplane theme for their rooms, no one has built a room quite like this with real airplane seats, beverage carts, overhead bins, and replica parts from a Boeing 737.

This is as real as it gets – particularly if you don't diffuse the bomb in time!

SEAL Team

You and your unit are part of America's elite SEAL team. You've been assigned a classified top-secret mission to eliminate a high-value ISIS terrorist thought to be hiding in the streets of Kabul. After being dropped into the city by helicopter, you must locate the target's hideout, navigate through extensive security measures and booby traps to enter the building, and ultimately find the terrorist before he escapes your grasp.

Whether you've played escape rooms before or not, you'll love the suspense of our SEAL Team room. There are lots of puzzles to solve and a more sequential feel than our other rooms. Each solved puzzle will take you one step closer to the final reveal. This is probably our hardest room, but it comes with one of the best endings you'll ever find in an escape room!

Do you have what it takes to be a Navy SEAL?

Mine Trap

You and your team of miners were hard at work deep underground in one of the most dangerous jobs in the world. Then your greatest fear was realized – part of the mine collapsed trapping you and your team underground and in the dark. The clock has now started.

You know that oxygen is limited, and it's only a matter of time until you suffocate. You must break through the fallen rock and wooden support beams, navigate the chambers of the mine and escape into the mine shaft elevator that will take you to safety. But your path is wrought with peril and dangers. It will take team work, collaboration, and speed to survive, but if you can escape, you'll be honored as heroes by the adoring crowds!

Mine Trap may have the best game play of any of our rooms. We love how it challenges players to think and solve problem. While smaller in space than some of our other rooms, it requires a full team to make it through. This is a must-play game for beginners and experts alike!

Amazon Survival

You and your teammates have been captured by the Shuar, a tribe of head hunting natives living deep in the Amazon rainforest. You're trapped in a make-shift prison and you've all been infected by the Shuar with the poison from the poison dart frog. If you don't find the antidote

that comes from the Kapok tree within 60 minutes, you will die an agonizing death and your head will become a trophy to the Shuar leader.

Getting out of your prison may be the easy part. Once out you must navigate the dangers of the jungle, avoid the Shuar hunters who have been sent to recapture you, and then you must find the elixir from the Kapok tree in time to reverse the deadly effects of the poison.

This room is "Coming Soon" and is slated to be our 5th to open. It will be a game play like you've never seen before. We're even considering putting an actual waterfall in the game!

Candidate Evaluations

Our escape rooms become a great way to find out what someone is really all about. It's amazing what you can learn about someone simply by watching what happens when you lock them in a room with a bunch of people they don't know.

We've applied our combined 15 years of interviewing and talent evaluation in the business world to design an evaluation process using escape rooms.

It's one more tool designed to help you identify and hire the best candidates for your jobs. We will provide you will an evaluation scorecard for your candidates and provide you with a video copy of the game for you to review.

Please reach out to us at info@escapetactic.com if you're interested in this service and exploring options to build custom scorecards and larger evaluation programs
